

DATAMOTION™ DMX BOOSTER/SPLITTERS

Booster/Splitters for DMX data distribution systems

SYSTEM COMPONENTS

DB5 Compact 5 output DMX Booster /Splitter

DB5 Booster/Splitter

DB5 KEY FEATURES

- 5 separately opto/galvanic-isolated outputs
- Opto/galvanic-isolated input
- 1 DMX-Hot-in/out loop through
- LED for data status and input power
- Short circuit protected in-and outputs
- EMC/ESD-protected in- and outputs
- Neutrik XLR 5-pin connectors
- Solid, compact truss-mounted housing
- Power 160-240V, 50/60Hz, 20W max. with PFC
- Size (physical, HxWxD) 175 x 150 x 60mm
- Weight (physical) 2,6 kg

TECHNICAL DATA

DATAMOTION™ DMX BOOSTER/SPLITTERS

Booster/Splitters for DMX data distribution systems

SYSTEM COMPONENTS

DB10 19" rack-mounted 10 output DMX Booster/Splitter

XLNT Advanced Technologies manufactures professional products for the lighting, audio and rigging industry.

Its DataMotion series consists of a complete range of modern, multifunctional and robust Ethernet Switches, DMX Booster/Splitters and DMX / Ethernet Nodes.

The XLNT DataMotion series is designed according to touring and rental specifications, ensuring the highest possible reliability standards to keep your equipment working under all possible circumstances.

The XLNT DataMotion DMX Booster/Splitters create multiple, independent, DMX lines from a single input.

The XLNT DataMotion products can be used for both rental and fixed install applications, such as in theatrical, corporate events, concert touring, television production, theme parks, and retail and architectural environments.

Products are housed in XLNT's solid, standardized truss and rack-mount enclosures.

DB10 KEY FEATURES

- 10 separately opto/galvanic-isolated outputs
- Opto/galvanic-isolated input
- 1 DMX-Hot-in/out loop through
- LED for data status and input power
- Short circuit protected in-and outputs
- EMC/ESD-protected in- and outputs
- Neutrik XLR 5-pin connectors
- 19" 1HE rack-mounted enclosure
- Power 160-240V, 50/60Hz, 20W max. with PFC
- Size [physical], WxHxD 483x44x160mm
- Weight [physical] 2,6 kg

DB10 Booster/Splitter
